

22.4.24

Dear Parents,

As you may be aware, where children have a medical need, as a school we produce additional documentation to ensure their needs are being fully met. This may take the form of a Health Care Plan and/ or an individual Risk Assessment.

These medical needs may include (but not limited to):

- Allergies (such as nuts, dairy or other specific allergies which have had a medical diagnosis)
- Health conditions (such as asthma, eczema or other chronic illnesses)

There also other short term health conditions which may require a health care plan such as:

- Broken bones or sprains
- Returning from operations or similar

We are also asking parents to outline if their child has been identified with a mental health issue which would require a healthcare plan and/ or risk assessment such as (but not limited to):

- Anxiety
- Sleep disorders
- Self harming behaviours

In these cases we would produce a Health Care Plan to ensure that staff are fully aware of any adjustments that may need to be made; what would constitute an "emergency" in this situation and how parents would wish for us to proceed in these circumstances.

At present we have a number of Healthcare plans active in school, but wish to update our records to ensure this is reflective of the current situation.

We ask that ALL children return this letter, regardless if whether a plan is needed, to ensure that letters are not simply lost or not returned. We ask for your support with this and as such request that the slip be returned by Friday 26th April to ensure that schools records are amended and Healthcare plans can be produced in a timely manner.

Many thanks,

J. Cromey

Headteacher

Child's name _____

Current year group _____

My Child has allergies Yes/ No

If yes- please give details below

My child has a health condition (either physical or mental) Yes/ No

If yes- please give details below

My child wears glasses Yes/ No
